Romania	05/2014 to date
Ireland	10/2014 to date
Armenia	03/2014 to date
France	06/2000 to 2014

Professional experience:

Date	Location	Company	Position	Description	
12/2015	Kirghizistan	Egis Group	<u>Project Director</u>	Construction/rehabilitation of Central Asia Link Project Capital repair of a 102 km long national roadway of - Lot 1 Isfana-Kairagach (36.08 km) - Lot 2 Batken – Kyzyl-Bel, Batken Roundabout – Km 248 (20.4 km). <u>Tasks in construction supervision:</u> - Engineer's Representative (determination SC3.5) - Responsible for implementing the Quality Assurance Plan - Claim manager	FIDIC Contract Pink Book (MDB 2010)
06/2015	Khazakistan	Egis Group	<u>Director of operations</u>	Reconstruction of Aktoke-Martuk-Russian Federation border roadway : km 0-102 Capital repair of a 102 km long national roadway <u>Tasks in construction supervision:</u> - Engineer's Representative (determination SC3.5) - Responsible for monitoring the project progress during DLP until the Performance Certificate - Closure of the Project.	FIDIC Contract Pink Book (MDB 2010)
11/2014	Ukraine	Egis Group	<u>Project Director</u>	M03 - KYIV-KHARKIV-DORHANSKY Motorway Widening of 45km long national road into a 2x2 lanes carriageway motorway with central reservation. The project is including one interchange. <u>Tasks in construction supervision:</u> - Engineer's Representative (determination SC3.5) - Liaise with the Client regarding contractual issues - Claim manager	FIDIC Contract Red Book
05/2014	Romania	Egis Group	<u>Project Director Resident Engineer (Replacement)</u>	Arad-Timisoara Motorway Construction Supervision of 30,500 km long motorway including two interchanges and a Maintenance Center. The project is a 2x2 lanes carriageway with central reservation. <u>Tasks in construction supervision:</u> - Responsible for monitoring the project progress during DLP until the Performance Certificate - Preparing Construction Book - Management of final Variation Order and Contractor's claim	FIDIC Contract Red Book
05/2014	Romania	Egis Group	<u>Project Director Resident Engineer (Replacement)</u>	Arad ByPass Motorway Construction Supervision of 11,800 km long urban motorway including three interchanges. The project is a 2x2 lanes carriageway with central reservation. <u>Tasks in construction supervision:</u> - Responsible for monitoring the project progress during DLP until the Performance Certificate - Preparing Construction Book - Management of final Contractor's claim	FIDIC Contract Yellow Book
11/2014 - ongoing	Ireland	Egis group	<u>Project Director</u>	N40/28 Pavement Inlay Renewal of Pavement on a 5km long highway consisting of milling, paving, lining under specific traffic management procedures (night working). <u>Tasks in works construction and in works supervision:</u> - Project and Construction Director - Responsible for managing the claim process	Specific Construction Contract (similar to FIDIC red book)

03/2014 - ongoing	Armenia	Egis group	<u>Project Director</u> <u>Resident Engineer (Temporary Replacement)</u>	Yerevan Western Ring Road Construction Supervision of 6 km long city road including widening of Arshakunyats Street on approximately 1.28 km length. The project is a 5 lanes carriageway with central reservation. <u>Tasks in construction supervision:</u> - Responsible for monitoring the project progress, particularly during the decision making stages - Giving the approval to all important documents required for the Project before submittal to the client - Implementing Quality Assurance Plan and control its actual application - Responsible for managing the Contractor's claim and Variation Orders	ADB Small Works Contract (Tender 1) FIDIC Contract PB MDB 2010 (Tender 2)
06/2014	Serbia	Egis group	<u>Highway Expert</u>	Post Disaster Needs Assessment after May flooding in Serbia Assessment of losses and damages to Corridor X and XI earthworks after heavy rainfall in Bosnia and Serbia in May 2014 <u>Tasks assigned:</u> - Site inspection of earthworks / Assessment of the damages - Proposal for further investigations	Highway Engineer Hydraulics and Earthworks specialist
06/2009 - 12/2014	France	Egis group	<u>Project Director</u> <u>Project Manager</u> <u>Claim Manager</u>	A89 Highway Lyon > Clermont-Ferrand, section Violay-La Tour de Salvagny Construction Supervision of the construction contract of 35 Km including 20 bridges, 40 hydraulics structures, 5 viaducts, 5 interchanges, 11 million cu.m of earthworks. <u>Tasks in construction supervision:</u> - Works supervision management: scope, budget, planning, technical specifications, quality control and cost estimates - Contract whole administration including IPCs, variations orders claims and amendment to the construction contracts - Client Relationship Management, Team Training, Mentoring & Evaluation	GCC equivalent to FIDIC contract (Red Book for road construction Yellow Book for viaducts)
08/2006 - 05/2009	France	Egis group	<u>Project Manager</u> <u>Claim Manager</u>	High-speed railway line Dijon > Mulhouse, section Voray-Loulans Construction Supervision of the construction contract 20 km long high speed project, including 12 bridges, 2 viaducts, 4 million cu.m of earthworks. The project was undertaken under conditions of contract similar to FIDIC Red Book <u>Tasks in construction supervision:</u> - Works supervision management: scope, budget, planning, technical specifications, quality control and cost estimates - Contract administration including IPCs, variations and claims - Client Relationship Management, Team Training, Mentoring & Evaluation	GCC equivalent to FIDIC Contract (Red Book)
08/2003 - 07/2006	France	Egis group	<u>Senior Supervising Engineer</u>	A89 Highway Clermont-Ferrand > Bordeaux, section Brive-Terrasson Construction Supervision of the construction contract of 21 km highway, including 20 bridges, 20 hydraulics structures 2 viaducts, 3 interchanges, 4 million cubic meters of earthworks. <u>Tasks in construction supervision:</u> - Works supervision in earthworks, drainage, pavement and equipment - Management of scope, budget, planning, technical specifications, quality control and cost estimates - Assistance to Contract administration including IPCs, variations and claims	GCC equivalent to FIDIC contract (Red Book)

07/2000 - 07/2003	France	Egis group	<u>Senior Supervising Engineer</u>	A89 Highway Clermont-Ferrand > Bordeaux, section Tulle-Ussel Construction Supervision of the Construction contract of 33 km highway including 20 bridges, 40 hydraulic structures, 2 viaducts, 5 interchanges, 5 million cu.m of earthworks. <u>Tasks in construction supervision:</u> - Works supervision in earthworks, drainage, pavement and equipment - Management of scope, budget, planning, technical specifications, quality control and cost estimates - Assistance to Contract administration including IPCs, variations and claims	GCC equivalent to FIDIC Contract (Red Book)
10/1999 - 06/2000	Canada	Egis group	<u>Senior Design Engineer</u>	Fredericton Moncton Highway Design optimization during the construction stage of a 230 km highway Design and Build contract. - Design Optimization (geometry, earthworks, drainage, pavement) during works stage - Responsible for the implementation of the technical optimizations by local designers	
01/1999 - 06/1999	France	Egis group	<u>Senior Design Engineer</u>	DELTA 3 : Multimodal Platform in Dourges Preliminary Design and preparation of tender documents for the multimodal transport platform. Preliminary and detailed Design (geometry, earthworks, drainage) ; Preparation and issue of tender documents	
08/1998 - 03/1999	France	Egis group	<u>Senior Design Engineer</u>	A89 Highway Clermont-Ferrand > Bordeaux, section Tulle-Ussel Road relocations, preliminary and detailed design	
05/1997 to 02/1999	France	Egis group	<u>Hydraulics Engineer</u>	A29 Highway Amiens-Neufchâtel en Bray (60 km) - A87 Highway Angers-Mortagne-sur-Sèvres (55km) Preliminary design of the drainage network	
09/1996 to 04/1997	France	Egis group	<u>Hydraulics / Design Engineer</u>	Navigable wide-gauge Moselle - Seine waterway link Fluid mechanics' feasibility studies ; Feasibility design of the 300 km waterway	
09/1995 to 04/1997	France	Egis group	<u>Design Engineer</u>	A16 Highway Amiens Boulogne Preliminary and detailed design on two Interchanges – Preparation of tender documents	
09/1992 to 09/1994	Senegal	AFVP (French Technical Co-operation Agency)	<u>Hydraulics Engineer - Construction Manager</u>	Water Supply Project In Eastern Senegal villages (Construction of 40m deep concrete wells) Determination of the location of wells, definition of work method statements, on-site job organization. Technical monitoring and management of well-digger teams. Expert assignments in fluid mechanics (hydrological studies, technical diagnoses of micro-dams)	

Principal Audits performed

- Supervision of M03 - KYIV-KHARKIV-DORHANSKY Motorway (45km long) in Ukraina: November 2014
- Supervision of Motorway on Corridor X, Section Demir Kapija – Smokvica – Macedonia : March 2016

Other relevant information:

- Earthworks specialist and referent for EGIS International
- Organizer for a training course in Earthworks for Egis International: Earthworks - Design and Construction Trainer in Earthworks and Hydraulics for Ponts Formation Conseil, one of France's biggest professional training bodies
- Participating in the 3rd International Seminar on Earthworks in Europe – Berlin – 19th/20th March 2012 - Publication "HIGHWAY A89 – THE LAST STRETCH TO LYON: COMPLEX EARTHWORKS THROUGH THE "MONTES DU LYONNAIS" MOUNTAINS
- Participating in the 4th congress 4th B&H Congress on Roads, Sarajevo, 18th & 19th September - Publication "HIGHWAY A89 – COMPLEX EARTHWORKS THROUGH THE "MONTES DU LYONNAIS" MOUNTAINS - RECONSTRUCTION OF A 120M HIGH SLOPE AFTER A BIG ROCKY FAILURE

I acknowledge that all the data included in this CV are true and sincere.

David POUCHELLE – 11/06/2016
